

ALESSIO AVENANTI

Professore Ordinario di Neuropsicologia e Neuroscienze Cognitive

Università di Bologna · Dipartimento di Psicologia · Campus di Cesena

alessio.avenanti@unibo.it | ORCID: 0000-0003-1139-9996 | Scholar H-index: 61 | Scopus H-index: 50

PROFILO SCIENTIFICO

Neuroscienziato cognitivo con oltre vent'anni di attività di ricerca, didattica e direzione scientifica, sono impegnato nella traslazione delle scoperte neuroscientifiche in applicazioni cliniche e sociali concrete. Le mie competenze comprendono le neuroscienze cognitive, affettive e sociali, la neuromodulazione non invasiva e la neuroplasticità, nonché la salute mentale e cerebrale lungo il ciclo di vita. La combinazione di un solido track record accademico internazionale con una radicata presenza sul territorio cesenate – dove sono responsabile dell'Unità Operativa del Dipartimento di Psicologia di UNIBO presso il Campus di Cesena e Direttore del gruppo di ricerca in Non-invasive Brain Stimulation – si traduce in una visione scientifica capace di integrare ricerca di base, approccio traslazionale e impatto sul territorio.

IMPATTO BIBLIOMETRICO

~150 Pubblicazioni totali	11.600+ Citazioni (Scholar)	61 / 50 H-index (Scholar / Scopus)	82% Articoli in Q1 (JCR)	>3 M€ Fondi competitivi (PI/Co-PI)
-------------------------------------	---------------------------------------	--	------------------------------------	---

POSIZIONE ATTUALE

- 2021 – oggi **Direttore dell'Unità Operativa (UOS) di Cesena** Dipartimento di Psicologia "Renzo Canestrari", Università di Bologna
- 2019 – oggi **Professore Ordinario di Neuropsicologia e Neuroscienze Cognitive** Dipartimento di Psicologia, Università di Bologna
- 2006 – oggi **Responsabile del gruppo di ricerca in Stimolazione Cerebrale Non Invasiva** Università di Bologna

PERCORSO ACCADEMICO E FORMATIVO

- 2019 – oggi **Professore Ordinario** Università di Bologna
- 2014 – 2019 **Professore Associato (Psicobiologia e Psicologia Fisiologica)** Università di Bologna
- 2006 – 2012 **Ricercatore (Psicobiologia e Psicologia Fisiologica)** Università di Bologna
- 2003 – 2019 **Research Fellow** IRCCS Fondazione Santa Lucia, Roma
- 2007 **European Diploma in Cognitive and Brain Sciences** Hanse Institute for Advanced Study, Delmenhorst
- 2007 **Dottorato in Neuroscienze Cognitive – Eccellente** Sapienza Università di Roma
- 2003 **Laurea Magistrale in Psicologia Sperimentale – 110/110 con lode** Sapienza Università di Roma

AREE DI EXPERTISE

Ricerca di base, clinica e traslazionale

- Neuroscienze cognitive, affettive e sociali: meccanismi cerebrali dell'azione, emozione, presa di decisioni, cognizione sociale e morale
- Neuromodulazione non invasiva (TMS, tES): sviluppo di protocolli per indurre plasticità corticale
- Elettrofisiologia (EEG, EMG) e neuroimaging (fMRI): approcci multimodali per lo studio dei meccanismi cervello-comportamento
- Neuroplasticità in invecchiamento fisiologico, stroke, sclerosi multipla, PTSD, disturbi psichiatrici e neurodegenerativi

Trasferimento tecnologico e applicazioni cliniche

- Sviluppo e validazione di protocolli avanzati di stimolazione cerebrale per la riabilitazione (es. stroke, disturbi del movimento)
- Valutazione neuropsicologica e psicofisiologica integrata (valutazione motoria, cognitiva, affettiva)
- Interventi di neuromodulazione per la salute mentale: ansie, fobie, PTSD, benessere psicologico e cognitivo

Formazione e disseminazione

- Docente in Neuroscienze cognitive da oltre 20 anni presso UNIBO
- Direzione del Corso di Laurea Magistrale in Neuroscienze e Riabilitazione Neuropsicologica, UNIBO (2018–2021)
- Supervisione di oltre 150 studenti; mentoring di 10+ dottorandi e 8+ postdoc diventati docenti o ricercatori indipendenti
- Oltre 100 conferenze internazionali (Harvard, UCL, Max Planck Institute, Peking University, ecc.)
- Intensa attività di divulgazione scientifica: RAI, CNN, The Times, Corriere della Sera, Festival della Scienza di Genova, Festival della Filosofia di Foligno

FINANZIAMENTI COMPETITIVI SELEZIONATI (ultimi 5 anni, ruolo PI/Co-PI)

2025–2027	Bial Foundation – "Charting the moral compass: TMS-EEG investigation of causal brain dynamics in moral judgment" PI € 59.000
2023–2025	PRIN 2022 (MUR) – "Visual awareness without visual cortex: from monkey neurophysiology to human patients" PI € 212.500
2023–2026	MNESYS – PNRR Partenariati Estesi – "Multiscale integrated approach to the Nervous System in health and disease" PI € 320.000
2023–2025	FISM 2022 – "Tracking causal interactions between premotor and motor areas in Multiple Sclerosis" PI € 30.000
2022–2026	Fondazione del Monte di Bologna e Ravenna – "Driving neuroplasticity of fronto-parietal motor circuits in aging" PI € 12.000
2021–2024	Ministero della Salute – Ricerca Finalizzata 2019 (stimolazione ultrasonica non invasiva) Co-PI € 449.700

Totale fondi competitivi ricevuti dal 2006: oltre € 3.000.000

RETI SCIENTIFICHE E COLLABORAZIONI INTERNAZIONALI

- Consulente scientifico, Universidad Católica del Maule, Chile (2019 – oggi)
- Membro dell'International Advisory Board, Latin American Brain Health Institute, Universidad Adolfo Ibáñez, Santiago (2021 – oggi)
- Honorary Member, Instituto de Neurociencia, Universidad de La Laguna, Tenerife (2018 – oggi)
- Revisore per ERC (2017, 2019, 2021, 2025), ANR Francia, DFG Germania, FWO Belgio, FNRS Belgio, NSF-BSF USA–Israele e altri 12 enti finanziatori internazionali
- Collaborazioni attive con: Harvard Univ., Ghent Univ., Univ. de La Laguna, Univ. Católica del Maule, Sapienza Roma, Univ. di Genova, Messina, Torino, IRCCS San Camillo, AUSL Romagna

ATTIVITÀ EDITORIALE

- Consulting Editor, Cognitive, Affective, & Behavioral Neuroscience (2015 – oggi)
- Section Board Member, Brain Sciences (2021 – oggi)
- Guest Editor, Special Issue NeuroImage (2025–2026)
- Section Editor, PLOS ONE (2011–2019); Editorial Board, Scientific Reports (2016–2020); Associate Editor, Frontiers in Human Neuroscience, Frontiers in Aging Neuroscience, Frontiers in Psychology (2011–2018)
- Revisore ad hoc per Nature Neuroscience, Current Biology, PNAS, Journal of Neuroscience, Cerebral Cortex, NeuroImage e oltre 30 riviste WOS

INCARICHI DI GOVERNANCE E SERVIZIO SCIENTIFICO

- 2023 – oggi **Vice-Presidente** Società Italiana di Psicofisiologia e Neuroscienze Cognitive (SIPF)
- 2021 – 2025 **Membro del Consiglio di Indirizzo** Fondazione Cassa di Risparmio di Cesena
- 2015 – 2021 **Membro della Commissione Ricerca di Dipartimento** Università di Bologna
- 2019 **Membro del panel EU Human Brain Project FLAG-ERA JTC 2019**
Commissione Europea
- 2014 – 2016 **Membro del panel Neuroscienza Integrativa** Agence Nationale de la Recherche, Francia

PREMI E RICONOSCIMENTI

- 2020 **Paul Harris Fellow – Rotary International** Riconoscimento onorifico per contributi scientifici, sociali e culturali
- 2019 **Membro eletto, International Neuropsychology Symposium**
- 2016 **Premio SIPF 2016 – Miglior Psicofisiologo Italiano** SIPF, Italia
- 2014 **Talento Tricontinental 2014** Universidad de La Laguna – CEI Canarias, Spagna
- 2011 **Young Investigator Award – TMS Research** Magstim Corporation & University of Oxford, UK
- 2004 **Summer Institute in Cognitive Neuroscience Fellowship** Dartmouth College
- 2004 **Golden Degree Award – Life Science** Roma, Italia
- 2003 **Young Investigator Award – AIP** Associazione Italiana di Psicologia, Italia

PUBBLICAZIONI RAPPRESENTATIVE (selezione tematica)

Neuromodulazione, plasticità e riabilitazione

- Turrini S et al., Avenanti A (2025). State-dependent STDP highlights function-specific premotor-motor pathways. Science Advances 11, eadu4098. IF=12.5
- Turrini S et al., Avenanti A (2024). Spike-time-dependent plasticity reveals premotor-motor pathways to automatic imitation. PNAS 121, e2404925121. IF=9.1
- Avenanti A et al. (2012). Low-frequency rTMS promotes use-dependent motor plasticity in chronic stroke. Neurology 78, 256–264. IF=8.2, Cit=203

Neuroscienze affettive e sociali

- Borgomaneri S et al., Avenanti A (2023). Associative plasticity in temporo-occipital back-projections improves perception of facial emotions. Nature Communications 14, 5720. IF=14.7, Cit=32
- Avenanti A, Sirigu A, Aglioti SM (2010). Racial bias reduces empathic sensorimotor resonance. Current Biology 20, 1018–1022. IF=10.0, Cit=479
- Avenanti A et al. (2005). TMS highlights the sensorimotor side of empathy for pain. Nature Neuroscience 8, 955–960. IF=15.5, Cit=513
